

CUTTING-EDGE INNOVATIONS

OUR ENGINEERS DESIGNED THESE SUPERIOR PRODUCTS WITH HIGH-GRADE QUALITY MATERIALS AND THE SAME ASSEMBLY QUALITY AS THE ORIGINAL

- Complete assembly with throttle position sensor for easy, single-step installation
- Upgraded to non-contact Hall effect sensor
- Flange gasket included as per OE specification where applicable
- 100% new, no core required

KNOW WHAT YOU BUY

SPECTRA PREMIUM™					
	BOARD	DC MOTOR	ASSEMBLY QUALITY	THROTTLE PLATE FIXING BAR	GASKET
	Simple and efficient Hall Effect chip technology, same as OE	Automated manufacturing, same specifications as OE	Same OE features and good durability, does not lose performance over time	Corrosion-resistant aluminum bar	Thicker and more robust gasket with notch
COMPETITOR*					
	Overly complex chip with poorly executed assembly	Manual soldering with superfluous blades	Poor construction, performance degeneration over time	Steel bar vulnerable to rust	Missing notch and looser fit

*Competitive product compared in this study is not representative of all aftermarket competitors' products.
