Cadillac 2006-04, Chevrolet 2007-04, GMC 2007-04  
(Front, with Cylinder Deactivation; w/Q-Type  
Quick Connect and Female End on Feed Side)

### PROBLEM:

Replacing a corroded fuel line is often a frustrating job. Original equipment rigid fuel lines can be difficult to re-route under the vehicle.

### FIX:

These Dorman OE FIX lines are stainless steel over flexible PTFE tubing, made to specific length for certain GM cars, and include new brackets and factory connectors for the easiest possible installation.

- Upgrade the repair with a manifold featuring a specialized ceramic coating that more evenly distributes heat to help prevent thermal cracking and premature corrosion.
- Ceramic coating is highly corrosion-resistant, maintaining like-new appearance for years while other cast manifolds show significant unsightly rust.
