RATCHET CRIMP TOOL BODIES

8.7" & 10"

The Caméléon ratchet crimp tool body consists of a sturdy carbon steel frame, adjustable compression wheel and rubberized handles for a comfortable grip. The crimper eliminates the problem of over crimping connectors. The ratchet action and quick release ensure that crimps are secure and uniform. The built-in safety release allows the tool to release mid crimp if required.

Available as 8.7" Body or 10" Body, for those jobs that require extra leverage.

The Caméléon crimper adapts perfectly with any PICO Caméléon dies. The easy change technology allows the dies to be changed rapidly without the need of any other tool.
